<i>Chapter</i>	<i>Page</i>
1. Technology, Trade, and the Future of the U.S. Housing Construction	
Industry . . . . .	3
The Impact of Factory Construction. . . . .	4
Barriers to the Adoption of New Housing Technology in the United States : : : : : . . . . .	4
International Competition . . . . .	5
Policy Alternatives . . . . .	6
Improving the Fragmented System of Housing Regulation and Its Enforcement in the United States . . . . .	6
Revising the Current Process of Inspection for “Manufactured” (Mobile) Homes . . . . .	7
Labeling Building Quality . . . . .	7
Increasing Government Support of Research in Building Technology . . . . .	8
Reducing Excessive Changes in Housing Demand . . . . .	8
2. The Development of the U.S. Housing Construction Industry. . . . .	11
The Various Kinds of Factory-Produced Homes . . . . .	13
“Manufactured” (Mobile) Homes . . . . .	13
Modular Homes . . . . .	16
Panelized Homes . . . . .	18
Precut Systems . . . . .	18
Component Systems. . . . .	18
Industry Segments . . . . .	20
Production Builders . . . . .	20
Builder/Dealers . . . . .	21
Small Builders . . . . .	21
U.S. Home: A Case History . . . . .	21
Trends in Industrialized Housing . . . . .	23
The Early Years . . . . .	23
Operation Breakthrough . . . . .	24
After Operation Breakthrough . . . . .	25
The Future . . . . .	26
Market Concentration . . . . .	27
Implications for Small Builders . . . . .	27
“Manufactured” (Mobile) Homes . . . . .	27
3. Consequences of the Shift to Industrialized Housing . . . . .	31
Employment Impacts . . . . .	31
Productivity . . . . .	31
Employment Levels . . . . .	32
Skill Levels and Unionization . . . . .	33
Wage Levels . . . . .	35
Potential To Upgrade Job Quality . . . . .	35
Housing Costs . . . . .	35
Housing Quality . . . . .	38
4. Industrialized Housing in Japan, Western Europe, and Canada. . . . .	43
Japan . . . . .	44
Sweden . . . . .	45
Finland . . . . .	46
Denmark . . . . .	47
Canada . . . . .	47

<i>Chapter</i>	<i>Page</i>
Great Britain . . . . .	47
France . . . . .	48
Norway . . . . .	48
West Germany . . . . .	48
Others . . . . .	48
5. International Competition in Industrialized Buildings, Components, and Appliances . . . . .	51
Trade Factors Affecting Exports to the United States . . . . .	52
Currency Exchange Rates . . . . .	52
Availability of New Markets . . . . .	52
Idle Plant Capacity and the Decline in Existing Markets . . . . .	52
Experience in International Trade . . . . .	52
Foreign Government Policies Affecting International Trade in Housing . . . . .	53
Overall Strategies and Planning . . . . .	53
Market information and Trade Representation . . . . .	53
Financial Assistance . . . . .	53
impediments to Market Penetration . . . . .	54
Changes in the International Market . . . . .	54
Lack of Understanding of American Markets . . . . .	54
Lack of Knowledge of Optimal Business Relationships . . . . .	54
Difficulties in Locating Interested U.S. Firms . . . . .	54
Materials Acceptance Problems . . . . .	55
Problems of Materials Testing and Acceptability of Foreign Standards . . . . .	55
Building Codes and Inspection Systems . . . . .	55
Trade Restrictions . . . . .	55
Lack of Understanding of Real Estate Markets . . . . .	55
Liability . . . . .	56
Shipping Costs . . . . .	56
import Possibilities for Various Building System Types... . . . .	56
Precut Systems . . . . .	56
Panelized Systems . . . . .	56
Concrete Panels . . . . .	56
Steel-Framed Panels . . . . .	57
Wood-Framed Panels... . . . .	57
Spandrel Panels . . . . .	57
European Penetration of U.S. Panelized Systems Markets . . . . .	58
Wet Core Modules/Control Centers . . . . .	58
Modular Systems . . . . .	59
“Manufactured” ( Mobile) Home Systems . . . . .	60
Manufacturing Equipment. . . . .	60
Foreign Investment and Development . . . . .	60
Joint Ventures With U.S. Firms . . . . .	60
Mergers and Acquisitions . . . . .	61
Foreign Development and Construction . . . . .	61
Appliances . . . . .	61
Materials, Components, and Equipment . . . . .	63
Impediments to U.S. Penetration of Overseas Housing Markets . . . . .	63
Increased Competition.. . . . .	64
Lack of Understanding of Foreign Markets . . . . .	64

# Contents—continued

Materials Acceptance Problems . . . . .	64
Building Codes and Inspection Systems . . . . .	64
Trade Restrictions . . . . .	64
Lack of Experience in International Trade . . . . .	65
International Volatility . . . . .	65
Corruption . . . . .	65
Distance . . . . .	65
Lack of U.S. Government Support . . . . .	65
Incentives and Opportunities for U.S. Penetration of Overseas Markets . . . . .	65
Exportation of Materials . . . . .	65
Marketing Strategies . . . . .	66
Possible New Incentives for Trade by the U.S. Government . . . . .	66
<b>6. Government's Role in Facilitating New Technology . . . . .</b>	<b>69</b>
Factors Impeding Innovation . . . . .	69
The Regulatory Environment . . . . .	69
Inadequate Study of Total Building Systems and Information Dissemination . . . . .	70
Fluctuations in the Building Cycle . . . . .	70
Housing Regulation . . . . .	70
The Current Regulatory Framework . . . . .	70
The HUD Code System . . . . .	71
Criteria for a New Regulatory System . . . . .	75
Alternative Regulatory Systems . . . . .	76
Fostering Technological Innovation . . . . .	85
Stabilizing the Building Cycle . . . . .	87
Appendix. Contributions . . . . .	91

## Tables

<i>Table No.</i>	<i>Page</i>
1. Factory Construction as a Percent of All Residential Construction in the United States . . . . .	12
2. Comparison of Mobile Home Shipments and Sales of Single-Family Site-Built Homes for Under \$50,000, 1977-83 . . . . .	15
3. Top 25 Homebuilders by Units Produced, 1983 . . . . .	26
4. The Nation's Top Producers of Mobile Homes . . . . .	28
5. Percentage of Work Force in Various Skill Categories . . . . .	34
6. Approximate Cost Breakdown for New Single-Family Homes . . . . .	36
7. Construction Time Comparison . . . . .	36
8. Cost and Size Comparisons of "Manufactured" (Mobile) Homes and Site-Built Homes Sold . . . . .	37
9. Percent of "Manufactured" (Mobile) and Site-Built Homes With Various Problems . . . . .	38
10. Comparison of the Top Five Factory Housing Companies in Japan, 1983 . . . . .	44
11. Factory Home Construction in Japan (as a percent of all home construction) . . . . .	45
12. Factory Construction of Single-Family Homes in Sweden (as a percent of all single-family home construction) . . . . .	45
13. Compliance With Acceptable Quality List . . . . .	74

## Figures

<i>Figure No.</i>		<i>Page</i>
1.	Exploded View of a “Manufactured” (Mobile) Home Resting on a Chassis . . . . .	14
2.	Home Ownership by Income Cohort for 1983 . . . . .	16
3.	Double-Wide Modular Home . . . . .	17
4.	Diversification Trends of Component Manufacturers . . . . .	19
5.	Component Framing Assemblies . . . . .	20
6.	A Model of the Industry . . . . .	22
7.	Residential Building Contractors . . . . .	33
8.	Total Number of Employees in the Mobile Home industry (SIC 2451) and the Prefabricated Wood Buildings Industry (SIC 2452). . . . .	33
9.	Production Workers as a Percent of Total Employment in the Mobile Home Industry (SIC 2451) and the Prefabricated Wood Buildings Industry (SIC 2452) . . . . .	33
10.	Average Hourly Earnings of Employees by Industry Sector . . . . .	35
