

MATERIALS R&D BIBLIOGRAPHY

MATERIALS

Strategic Analysis, Inc. (OTA contractor), New Structural Materials Technologies: Opportunities for the Use of Advanced Ceramics and Composites, Advanced Construction Materials” chapter, December 31, 1986.

Business Communications Company, Inc. (OTA contractor), Strategies of Advanced Materials Supplies and Users, “Advanced Construction Materials,” 1986.

J.E. Carpenter, “Applications of High Strength Concrete for Highway Bridges,” Public Roads.

Materials Research Society, Symposium Proceedings, Microsilica Concrete: A Technological Breakthrough Commercialized, (Elkem Chemicals, Inc., Pittsburgh, PA), Volume 42, 1985.

Materials Research Society, Symposium Proceedings, (J. Francis Young, editor), very High Strength Cement-Based Materials, November 27-28, 1984.

K. Kendall, A.J. Howard and J.D. Birchall, The Relationship Between Porosity, Microstructure and Strength, and the Approach to Advanced Cement-Based Materials, ICI New Science Group, U. K., 1983.

Imperial Chemical Industries (ICI), New Inorganic Materials, January 1986.

“State-of-the-Art Report on Fiber Reinforced Concrete,” concrete International, May 1982.

ICI, Porosity and Its Relationship to the Strength of Hydraulic Cement Pastes, Proceeding, 1985.

Mehta, P. Kumar, “The Future of Concrete,” Concrete Structures, Properties, and Materials.

Frohnsdorff, G. and J. Skalny, Cement in the 1990s: Challenges and Opportunities, 1983.

Office of Research and Development, Federal Highway Administration, Department of Transportation, Applications of High Strength Concrete for Highway Bridges, October 1981.

W.C. McBee, Sulfur Concrete - A New Construction Material.

W.C. McBee, T.A. Sullivan, and H.L. Fike, Bureau of Mines, U.S. Department of Interior, Sulfur Construction Materials, Bulletin *678, 1985.

Materials and Society, Special Issue: Mineral Economics Symposium, Volume 9, #2, 1985, p. 179.

Civil Engineering Department, University of New Mexico at Albuquerque, Proceedings, 1981 Paving Conference.

Civil Engineering Department, University of New Mexico at Albuquerque, Proceedings, 1983 Paving Conference.

Sulfur Extended Asphalt as a Paving Material, Chapter 3.

Highway Engineer, "How Our European Neighbors Tackle Bitumen Road Construction," December 1976.

Daniel H. Halpin, "Technology in Architecture, Engineering, and Construction, Chapter 8: Concrete Fabrication and Forming Techniques, OTA Contract, February 28, 1986.

Brookhaven National Lab, Polymer Concrete Patching Manual, June 1982 (microfiche).

Transportation Research Record, "System Construction of Medium-Span Bridges in Prestressed Concrete," Man-Chung Tang, (no date).

civil Engineering, "Concrete-pavement Recycling Could Slash Rehab Costs 300/0," November, 1981.

Civil Engineering, "Engineering with Fabric," December 1985.

civil Engineering, "New Ways with Concrete," May 1985.

Transportation Research Record 871, "Full-Span Form Panels for Highway Bridges," Clifford O. Hays, Jr., and John M. Lybas.

PCI Journal, "Development of the Concrete Technology for a Precast Prestressed Concrete Segmental Bridge," Sept-Oct 1982.

PCI Journal, "Prestressed Concrete in Transportation Systems," May-June 1980.

H. W. Chung, "PFA Aggregate Concrete in Prestressed Composite Structures."

Nature, "Flexural Strength and Porosity of Cements," January 29, 1981.

OTA, New Structural Materials Technologies: Opportunities for the Use of Advanced Ceramics and Composites, A Technical Memorandum, September 1986.

Metallurgical Plant and Technology, "Material-Compatible Solutions Using High-Strength Steels in Bridge Construction," February 1982.

National Materials Advisory Board, National Research Council, The Status of Cement and Concrete R&D in the United States, 1980,

The Canadian Geotechnical Society, Geotextile and Geomembrane International Information Source, 1984.

R. Velkhuijzen Van Zanten (editor), Geotextiles and Geomembranes in Civil Engineering, New York: John Wiley & Sons, 1986.

Transportation Research Board, National Academy of Sciences, Engineering Fabrics in Transportation Construction, #916. Washington, D, C., 1983.

Proceedings of the International Conference Organized by the Institution of Civil Engineers, Flexible Armoured Revetments Incorporating Geotextiles, London, March 29-30, 1984.

Committee on Construction Productivity, Building Research Board, Commission on Engineering and Technical Systems, National Research Council, Construction Productivity.

“Focus on Asphalt Properties,” Better Roads, September 1986.

“Repairing Concrete with Polymers,” The Military Engineer, August 1985.

National Research Council, “Second North American Conference on Managing Pavements, strategic Highway Research Program FOCUS, February 1987.

“A New Era in Bridge- Rebuilding,” ENR, January 5, 1984.

“The Pipe Business Gets a New Shake from Advanced Technology,” Modern plastics, February 1987.

RESEARCH AND DEVELOPMENT

National Research Council, New Report, “Research to Improve Highway s,” page 14, June 1986.

American Academy for the Advancement of Science, Report XI: Research & Development 1987, 1986.

American Academy for the Advancement of Science, Report IX: Research & Development 1985, 1984.

National Science Foundation, Federal Funds for Research and Development. Fiscal Years 1983, 1984 and 1985, Volume XXXIII, Washington, D. C., 1985.

Congressional Budget Office, Federal Support for R&D Innovation, April 1984,

American Society of Civil Engineers, Research Needs Related to the Nation’s Infrastructure, Proceedings of the Workshop sponsored by NSF, April 24-26, 1984.

Congressional Research Service, Transportation Infrastructure Research, Issue Brief, 2/22/84.

House Science and Technology Committee, Subcommittees on Investigations and Oversight, and Transportation, Aviation and Materials, Hearing on Higwav Transportation Infrastructure Research and Technology, May 1984.

House Science and Technology Committee, Subcommittees on Investigations and Oversight, and Transportation, Aviation and Materials, Hearings on Transportation infrastructure Research and Technology June 9, 15-16, 1983.

U.S. Army Corps of Engineers, Construction Engineering Research Laboratory (informational pamphlet).

Commission of the European Communities, BRITE (Basic Research in Industrial Technologies for Europe), Information Package, no date.
