textbook: S. Mac Lane, *Categories for the Working Mathematician*

At the end of each week, we will announce which pages in CWM will be most relevant for the following week. For week 1, please study chapter 1.

requirements:

1. precept — present one solved problem every three weeks, for a sum total of four solved problems (10%)
2. problem sets — approximately one per week (35%)
3. exams — take-home midterm exam (25%), and a take-home final exam (30%)
